

Zubiya Ansari

Software Developer

I am a passionate and driven engineering student with hands-on experience as a full-time Software Intern at Fladdra Technologies since June 2024. During my internship, I have developed strong expertise in frontend technologies such as React.js, MUI components, and Tailwind CSS. I am eager to continue growing my skills and contributing to impactful software projects while balancing my academic pursuits..

WORK EXPERIENCE

Software Development Intern

Fladdra Technologies

06/2024 - Present

Pune

Tasks/Responsibilities

- **Frontend Development:** Delivered feature-rich applications by handling both UI and functional aspects of frontend development using React js and tailwind css, ensuring seamless user experiences and performance.
- **Manual Tester:** Manually tested ITSM software and Educationist AI software, focusing on functionality, user experience, and performance. Documented test results, identified areas for improvement, and collaborated with developers on bug fixes. Utilized functional and regression testing strategies, contributing to high-quality product delivery and assisting in test plan execution.
- **UI-UX Designer:** Created interactive user interfaces for Hayat National Hospital Mobile Application using Figma.
- **Projects:** SaaS ITSM, SaaS CRM, Educationist AI, Hayat National Hospital

PROJECTS

ITSM (IT Service Management):

- Developed and designed the user interface of the ITSM software using React.js, MUI components, and Tailwind CSS.
- Utilized Material-UI (MUI) components for a consistent and professional user interface design, enhancing functionality and aesthetics.
- Conducted user testing to identify and resolve UI/UX issues, improving usability and accessibility.

_Hayat National Hospital

- Created interactive User Interfaces for best user experience.

Educationist AI

- Manually tested the application for any bugs or issues.
- Developed the frontend of the web application using react js, mui materials and tailwind css.
- CRM saas software
- Manually tested the application for any bugs or issues and simultaneously resolved them.
